

Department Seminar Aquatic Ecotoxicology - Winter semester 2021/22 -

The seminar will be held on **Tuesdays** from 10:00 a.m. via [Zoom](#).

Seminar dates and topics

Date	Name	Title
19 Oct		
26 Oct		
02 Nov	Jana Kabus	The CrySpEE Project and the most “beautiful” rivers of the Bal-kan
09 Nov	Natalie Reininger	Comparative study of bisphenol A and of selected analogues in <i>in vitro</i> and <i>in vivo</i> tests
16 Nov	Hanna Grebner	Sedimentextrakt- vs. Sediment-Kontakt-FET
23 Nov	Delia Hof	Half a year of „DECIDE“ – summary and first conclusions
30 Nov	Anita Herold	Ökotoxikologische Bewertung des Gersprenz-Einzugsgebiets im Rahmen des DECIDE-Projekts
07 Dec	Erik Aschenbrenner	Upstream migration of native and invasive amphipods under laboratory conditions
14 Dec	Johanna Schramm	Aktives Monitoring mit Makrophyten
11 Jan	Franziska Steingräber	Biologisches Effekt-Monitoring an der Gersprenz: Vorstellung erster Ergebnisse
18 Jan	Laura Soose	Project presentation: AmRes - Resilience of the order Amphipoda in the evolving Anthropocene
25 Jan	Malte Glock & Nina Kuschik-Maczollek	Ecotoxicological characterisation of the “Fechenheimer Main-bogen”
01 Feb	Katrin Geh	Langzeiteffekte von Pflanzenschutzmitteleinsatz auf die Bodenfauna und potentielle Amelioration durch Pflanzenkohleeinsatz
08 Feb	Lars Pelikan	Species turnover and functional equivalence across environmental gradients - Insights from the key group Amphipoda
15 Feb		

The Staff of the Department Aquatic Ecotoxicology
