

Department Seminar Aquatic Ecotoxicology - Winter semester 2022/23 -

Seminar dates: **Tuesdays** from 10:00 a.m.

Venue: Biologikum, **seminar room 2** (room no. -1.301)

On 13 Dec and from 10 Jan until 7 Feb in **seminar room 1** (room no. -1.201).

Seminar dates and topics

Date	Name	Title
18 Oct	Marc Pelzer	Fließgewässerbelastung durch Wassererosion und Abschwemmung landwirtschaftlicher Flächen in Hessen
01 Nov	Gustav Glock	Connecting land use to sampling sites using ArcGis
15 Nov	Ann-Christin Dorow	Pestizidinduzierte Verhaltensveränderungen von Amphipoden
22 Nov	Sarah Hörchner	An ecotoxicological assessment of restoration measures on small streams in Northern Hesse, Germany (EffektMon)
13 Dec	Laura Soose Catalina Trejos Delgado	AmRes – current status of the project Endocrine disruption activity in two WWTPs
20 Dec	Jana Kabus Daniel Enns	CrySpEE 2.0 – First results and impressions of the Prespa Research group Salinity tolerance of the <i>Gammarus roeselii</i> group complex
10 Jan	Delia Hof	Is there a seasonal impact on sampling in the field?
17 Jan	Sarah Betz-Koch & Pia Lüdeke	Are regulatory acceptable concentrations (RACs) of pesticides too high for aquatic invertebrates? - A mesocosm study with the insecticide deltamethrin using artificial indoor streams
24 Jan	Aleksandra Jurewicz	Etablierung eines AChE-sensitiven Assays zur Bestimmung der neurotoxisch wirkender Effekte in aquatischen Ökosystemen
31 Jan	Malin Janssen	Ecotoxicological assessment of event-driven inputs along the course of the Alb River, Germany (EffektMon-Project)
07 Feb		
14 Feb	Natalie Reininger	<i>In vitro</i> results of 11 bisphenol analogues compared to BPA
