14:00-15:00	Short Methods Refresher/Methods prep-course by Dr. Sarah Schmidt; Part I /II	Seminarhouse SH 0.104
	<p>The MA Comparative Democracy is a research-focused program aiming to provide students with cutting-edge theoretical, methodological, and empirical skills and knowledge. In terms of methods, the course program offers two advanced introductions into different kinds of research designs and approaches (led by Prof. Wagemann and Prof. Ruhe). This short, 4-hours course is a voluntary, non-degree course that we offer before the start of the semester as a methods refresher / methods prep-course. The idea is that we assume that all students will have different backgrounds and training in research designs and methods, and empirical-analytical research in general. Some will be very advanced, others might have training in some but not other methods, still others might not have a good overview on different designs and their relevance in the first place. This course will take stock of students' skills and walk through the basics of good scientific practice based also on students' skills and needs. While it is a voluntary program that you do not have to participate in, we highly recommend that you participate, especially if you are not familiar yet or do not feel comfortable with research designs and statistical analysis. There will be no exams or tests, this is only about helping you achieve the best possible skills and knowledge and preparing you well for the course program.</p>	

Wednesday 11th of October 2023		Room
16:00 – 22:00	Champagne Reception of the student representatives	PEG Foyer

Friday 13th of October 2023		Room
11:00 – 14:00	Short Methods Refresher/Methods prep-course Part II/II	Seminarhouse SH 0.105
14:00 – 20:00	Campus Rallye with the student representatives	Meeting in front of the seminar house
