

Dr. Carsten D. Siebert (Research Group Noe)

Title of PhD thesis

Ligands at the Glycine Binding Site of the NMDA Receptor Complex and the inhibitory Glycine Receptor

Date of thesis defence

27.05.1999

Companies

Beilstein Chemiedaten und Software GmbH, Frankfurt/M, Germany.

ABDATA Pharma-Daten-Service, a business group of the Werbe- und Vertriebsgesellschaft Deutscher Apotheker mbH, Eschborn/Ts, Germany

Occupation

Editor

Statement

"My scientific work in an interdisciplinary research group passed me not only to profound chemical and pharmacological knowledge but also to allowed me to instruct colleagues and to learn interacting successfully with them within a project team. From my today's view these so called soft skills are of comparable importance as the accurate application of scientific methods which - of course - are the basis of the professional judgement of chemical and pharmaceutical facts at the desk. My research studies at the Institute of Pharmaceutical Chemistry were the access to editorial works on expert databases and the launch as author of text books. Today, I'm proud of the Frankfurt University which held an outstanding position in the German pharmacy and I would encourage to go this way too."
